## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

1. **Group I, claim(s) 1-15, drawn to a method of making.**
2. **Group II, claim(s) 16-31, drawn to a method of making.**
3. **Group III, claim(s) 32-35, drawn to a method of making.**
4. **Group IV, claim(s) 36-41, drawn to an apparatus.**

The inventions listed as Groups one and two do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: independent claim 32 recites a method of producing microparticles containing biological or chemical agents, comprising: (a) preparing an emulsion in a packed bed apparatus under laminar flow conditions, wherein said method results in the formation of microparticles; and (b) collecting said microparticles. KUHRIS (US 6,953,593) teaches a process for producing sustained release powders that is fast, efficient, and economical (abstract). KUHRIS further teaches the process involves melting an animal or vegetable oil in a mixer and

atomizing the hot oil to be sprayed onto a powder to provide sustained release powders that are free flowing and solid at room temperature (abstract).

A telephone call was made to Christopher Curfman on 05/13/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
